

Phantom - RESCUE DUMMIES

The Phantom evacuation mannequin, has been developed for training evacuation and medical procedures carried out in adverse operational conditions for:

- Army, Police, Firefighters,
- Medical, mountain, chemical, mining or industrial rescue services,
- Pro-defence organisations, associations and training companies.

The mannequin is made using certified materials with very high mechanical strength parameters, reinforced with polyester/polyamide tapes with a strength of 1,100 kg.
